Why are you interested in getting a Sunrise Golden Retriever Puppy?

If you work outside the home, what are your plans for the puppy while you are away?

Although our puppies will have a solid start to being house trained, they will not be housebroken when they go home and will likely have accidents indoors. Puppies never use the bathroom indoors out of spite or "on purpose," they simply have small, immature bladders that they cannot fully control yet. Do you understand that they are still babies that will require time, effort, and dedication on your part to continue their training to be fully house trained? *

Just like people, all puppies learn at a different pace. At Sunrise Golden Retriever we tailor our program to match the needs of each individual puppy which means that sometimes a puppy might not fully understand a skill we've taught them. We will do our absolute best to not only have each puppy successfully complete our program, but to exceed our expectations and learn even more. However, sometimes a puppy just isn't quite mature enough to fully grasp an Advanced concept we're teaching just yet. Do you understand that we cannot guarantee that each puppy will be able to successfully complete every Advanced exercise we teach?

Our puppies are started on Absolute Grace large breed puppy food. Switching your puppy's food abruptly can cause gastrointestinal upset such as vomiting, diarrhoea, and a decreased appetite. Any time you decide to change your puppy's food, you should transition to the new diet gradually in order to give your dog's system time to adjust to the change. Do you agree to keep your puppy on Diamond Naturals large breed puppy food for at least 4 weeks before transitioning to a new brand? *
